

Twins Born in D. V. Hospital

The Drayton Valley Municipal Hospital saw the first set of twins born Friday, August 28, when a boy and girl were born to Mrs. A. T. Mudy, of Calmar. The boy weighed 8 lbs., 14 1/2 oz., when born and the girl weighed in at 6 lbs., 8 oz.

From the middle of August till the end of the month, eleven babies were born in the local hospital.

Aug. 17-Mrs. Mildred McCune, girl, 8 lbs., 2 oz.
Aug. 18-Mrs. Phyllis Kane, girl, 5 lbs., 15 1/2 oz.
Aug. 20-Mrs. Eileen Bradley, boy, 8 lbs., 9 1/4 oz.
Aug. 20-Mrs. Jean Poppydact, girl, 6 lbs., 4 1/2 oz.
Aug. 23-Mrs. Marie Stang, girl, 5 lbs., 8 1/2 oz.
Aug. 23-Mrs. Lucille Marshall, boy, 8 lbs., 9 1/2 oz.
(This young lad stood out the boy born to Mrs. Eileen Bradley on Aug. 20 by a mere 1/4 oz., for the Heaviest Baby of the week.)
Aug. 25-Mrs. Ruth Schellier, boy, 8 lbs., even.
On the first day of the new week a baby boy was born to Mrs. Isabel Callison, 7 lbs., 1 oz.
Aug. 23-Mrs. Phyllis Morrill, boy, 8 lbs., 2 oz.
Aug. 26-Mrs. Gladys Schmitt, girl, 5 lbs., 5 1/2 oz.
And, closing out the month, on Aug. 28-the twins born to Mrs. Eileen Mudy.

99 Service Re-opens

Stan Pajek and George Christoferson recently took over the Valley 99 service station in Drayton Valley. The station will now be known as Drayton 99 Service. Stan and George plan on specializing in wheel alignment services. They are installing a new Hunter Line-A-line wheel aligner. In this type of wheel aligning a light shines from the wheel which is being aligned to the large Line-A-line board chart and so they can get a perfect register for alignment.

They plan on doing regular service station jobs such as lubrication and tire repairs and so on, as well as the wheel aligning service.

Police Department Reports

Since the first of the year until the end of August, Drayton Valley Police Department has handled some 35 court cases.

This includes cases of careless driving, no drivers licence, etc. As well as these cases there have been other minor offences in which a traffic ticket has been issued and paid without a court case.

Other court cases tried in Magistrates Court in Drayton Valley since the first of the year include 39 under the Liquor By-laws, 39 under the Criminal Code of Canada, and 6 cases under the Juvenile Delinquency Act.

Of the cases under the Juvenile Delinquency Act, 2 were sentenced to indefinite periods in Bowden, 2 were sentenced to 18 months for car theft, 2 were sentenced for 1 year for car theft, 5 were sentenced to 1 year suspended sentences and 1 to a six months suspended sentence.

Under the Alberta Government Liquor Act 68 cases have come up in court. These have covered illegal possession of liquor, minors on licensed premises, intoxication, etc.

260 traffic tickets have been issued for parking violations, speeding, etc. In the period since the first of the year 477 Mobile Homes Licences have been checked and issued.

Total of the fines for the period has amounted to approximately \$4,000.

Now that school has reopened the Police Department is asking the motorists to be particularly careful at school intersections. A

School Patrol is to be set up in the near future. Meanwhile the continued cooperation of all motorists at school intersections and crossings is requested. Motorists are reminded that should they fail to stop at the red light at the school intersection or fail to stop for school children crossing the street or highway, the children may take their licence numbers and report them.

Parents have expressed their appreciation of the school police patrol maintained by Drayton Valley Police Department at the main school intersection during the time school is starting in the morning, at noon hours, and so on. When the School Patrol is formed, part of this duty will be taken over by the members of the School Patrol themselves.

District Personalities

Mr. June Chew
Drayton Valley Hotel Coffee Shop

This week's Personality deals with the genial proprietor of the Drayton Valley Hotel Cafe, June Chew. Mr. Chew has been in Drayton Valley for a little over three years. He came here from Vancouver, where he was also in the restaurant business. He also operated a restaurant in Carleton Place for six years.

Province, China where his father was a farmer and came over to Canada when quite young. In 1920 he returned to China for a year and was married there. His wife and son are still in China, in the British Protectorate of Hong Kong.

June has an unusual sense of humor and is well-liked by all who come into his place of business.

Three Sets of Twins Born in D. V. Hospital Athletic Association

Pictures by Curt's Studio

Three sets of twins were in the Drayton Valley Municipal Hospital at the same time recently, under what is said to be very unusual circumstances, as it is said to be quite unusual, even in the larger hospitals, for there to be as many as three sets of twins in the hospital at the same time.

The first set of twins was born on August 28, to Mr. and Mrs. A. T. Mudy, of Calmar. They were a boy and a girl, and may be seen in the arms of Nurse Mrs. Kay Johnson, on the left side of the picture. They weighed, (boy) 8 lbs. 14 1/2 oz. and (girl) 6 lbs. 5 oz. In the centre are two baby girls, the daughters of Mrs. Ann Karach, of Stony Valley; these two little ladies were born on September 7, and weighed 7 lbs. 8 oz., and 6 lbs. 8 oz. They are held by Nurse Mrs. Laura Androschuk. In the arms of Nurse Miss Doris McKinnon, on the right, may be seen the boy and girl born to Mrs. S. Suchan on September 6th. They weighed 6 lbs. 4 oz. and 6 lbs. 3 oz. Mrs. Suchan lives in Drayton Valley; Mrs. Mudy lives in Calmar.

The Mudy twins are each eligible for a baby spoon from Lloyds Jewelry for the week of August 23 to 29, and for this week, September 5 to 12, when both the other two sets of twins were born, the heaviest pair will be eligible for the spoons; which will be the two girls born to Mrs. Karach, whose combined weight was 13 lbs. and 11 oz., outweighing the twins born to Mrs. Suchan by 1 lb. and 4 oz. Mr. Lloyd says that in over 5 years of conducting the Heaviest Baby contest, (in Valcan, before coming here) he has never before given away four baby spoons at once. (For pictures of the first baby born in Drayton Valley Hospital see page 5.)

Doctor to Locate in Drayton Valley

Dr. and Mrs. Ian Grant Waugh were formerly located at Maricao, on the Coal Branch. Dr. Waugh will practice in Drayton Valley as soon as his office in the Lloyd Bohn in County Durham, England, is ready.

Dr. Waugh attended Oxford and Edinburgh Universities, and qualified for Medical practice in Ontario (continued on page 3)

A new association was recently formed in Drayton Valley, known as the Drayton Valley Athletic Association. Jack Falls has been chosen chairman and Gordon Cross is secretary. Vice chairman is Les Tuckett and Associate secretary is Marley Sitzer. Other officers for the association will be chosen at a later date.

Purpose of the group is to coordinate and supervise all sports activities in Drayton Valley. Three meetings have been held thus far and things are rolling along very favorably. Another meeting is slated for Thursday night, at 8:00 p.m. Sept. 10, in the Curling Rink.

The group will supervise summer-time and winter sports which will include: hockey, basketball, baseball, school curling, boxing wrestling and gymnastics, baseball and football, badminton, volleyball, track and field, swimming, bowling, skating and tennis.

The group will supervise all intramural seasonal sports activities.

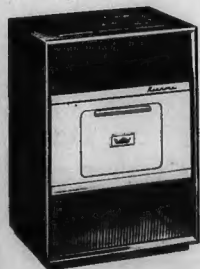

A. M. A. Training Course

The Alberta Motor Association recently announced that another Driver Training Course will be conducted in Drayton Valley, starting after September 17. It will be a two week course. Those interested may contact Chief Constable A. Miles at the Town Police Office.

WHY DO GOOD PEOPLE SUFFER?

Dr. Robert W. Youngs
Minister, First Presbyterian Church,
Welles, Kan.

We are ever baffled by the injustice of the moral world. "Why?" is the most timeless and universal of all questions, as old as the first test and as recent as the latest newscast. We can see a reason for accidents dying young, but why the unjust death of saints? We can justify a gangster's being stricken with disease, but why little children? We can accept adversity in the life of an infidel, but why in the life of the faithfully blind.

The Bible gives us answers to these with consummate understanding and skill. Cyrus Bartol wrote of suffering, "What pains and tears the slightest steps of man's progress have cost! Every hitherto forward has been in the agony of some soul, and humanity has reached blessing after blessing of all its vast achievement of good, with bleeding feet."

For one thing, the Bible reminds us that good people sometimes suffer because God through nature can be no respecter of persons. (The marchers in the sun on the evil and on the good, and sendeth rain on the just and on the unjust.) "This is a world of law and order, where all people are subject to cause and effect, the gamut of their virtue or lack of it. Good people are just as susceptible as bad people when they are exposed to contagious diseases. They strike the ground just as suddenly as wicked people when they slip and fall. The world would be an unscientific and unpredictable place in which to live if it were not this way.

For the sake of an orderly world, good people have to live under the same conditions as wicked people, except that good people have a faith and fortitude which make them masters of fate and of adversity.

Then, too, the Bible shows us that good people sometimes suffer because they do not temper goodness with other necessary qualities in life. ("Be ye therefore wise as serpents, and harmless as doves.") In his parable of the fig tree, Jesus was suggesting to his followers that they might suffer less if they had foresight as well as faith, realism as well as idealism, and industriousness as well as spirituality. We can be good as gold, and yet suffer poverty if we do not work and have. Very often, good people suffer because they have no prudence to go with their piety.

Furthermore, the Scriptures reveal repeatedly that good people suffer because suffering is one of the best ways that God has of bringing out the best in life. Consider how the Apostle Paul, suffering the tortures of his flesh, found that when he was weak, then he was strong. Such godlike qualities as love, patience and compassion are called forth in us by suffering. Without suffering, life would be mechanistic and animal-like, not godlike. A life that knows at least a little suffering never grows complacent.

And, most important of all, suffering is God's way of improving the world. If no one but wicked people suffered, we would hardly ever hear and say, "They deserved it," but when saints suffer, we cry, "This must not be!" Nothing moves us more to contribute generously to the cure of cancer than when we read of the saint who died of the disease.

There is something about freedom of action which inspires stamina, productivity, and an assortment of other virtues. Soldiers of the free world have shown remarkable ability to outmaneuver soldiers from more repressive lands. Workers in free countries have always been able to out-produce slave labor. Freedom is a competitive economy that the trappers of the workers in so-called collective farms or communes. Freedom to stand on our own two feet, to lose or gain, is worth something.

Freedom would not be in the dan if it is today if everybody knew it. It is hard to explain that freedom is not just a word; it is a value, dynamic, worth its weight in gold, as well as in spirit. It is a spiritual matter and when men gain it all else seems to be added unto them.

It is enough, we have to learn the lesson over and over again. We give up a little freedom here, a big freedom there, for some immediate, short-term material gain. As soon as we find that in giving up freedom we are losing something more valuable, we are ready to trade it back. We are ready to trade it back for the freedom we have lost.

Prayer is the outlet of the believer's sorrow, the inter of their sorrows and comforts. Christianity that doesn't straighten out your character is something else.

Children brought up in Sunday School are seldom brought up in their days it would be, "Don't Fence Me In," and they could quote agricultural experts to prove the validity of their request.

It seems that in a carefully conducted test, hens allowed to run free on the range laid more eggs than their fenced-in sisters; and they were healthier and heavier.

This might surprise some folk, but it doesn't surprise me. I know

that artificially stocked lakes do not give the fighting fish you can find in waters where the fish always have been on their own.

Enter into his gates with thanksgiving, and into his courts with praise. Psalms 100:4.

Food for thought By: Danita Boling.

It is quite evident that we women have a "built-in" antenna for receiving the messages in regard to the change of seasons in the world of fashion. Like nature, we are always ready to don the pretty and colorful new tops when Spring or Fall rolls around. Right now, Nature is preparing herself for her last big "fancy dress ball" before she hops into bed, pulls the clean, white sheets over herself and goes to sleep for the winter months. Unlike Nature, in that respect, we certainly do not plan to sleep all winter, but we are all excited about attending the colorful fashion parade that precedes the time when we must settle for the monochrome of winter. On a recent shopping spree, I noticed that the stores are full of women just having the time of their lives doing their Fall shopping. I heard many expressions of pleasure over the color tones that are new for Fall and are being used for hats, dresses, shoes, bags, gloves and additional accessories. Burnt orange, brilliant blue, deep rich greens, taupes, browns and the over bluish black and white are giving us a chance to do some clever combining of colors or matching. The hat departments seemed to be having the most fun of all. Women have developed quite a sense of humor about hats and there is usually an air of laughter and friendliness among hat shoppers. Hats, this Fall, are very smart and more flattering to the majority than in the past. Feather trim is popular, especially pheasant tail feathers for the sporty hats and ostrich feathers for dressy hats. The hat shapes are interesting, too. Most of the hats are small but have high tops and often a small drop brim. The taller crowns are usually shaped enough to take away that stiff boy look which was in the past. Small feathered cloches are still with us and for the lady who can wear the extreme styles and not look too odd, they are showing men's hats! Believe it or not, I saw the Derby, Bowler, Hornburg and many other styles and styles for women. They are as cute as can be but not all of us can wear them easily. I spent time just watching ladies try them on and it was a riot. I saw a grandmotherly type, rather short and chunky with a very ruddy round face, gleefully put a Derby on her gray hair and her eyes flashed "I sparked out of her hand. She was amazed with herself. It was not the hat I would have picked out for her but she loved it and anything that can create that much sparkle in an older woman's face certainly should be hers. I wonder what grandpa would think if grandma pranced thru the front door in her new Derby hat???? Another very lovely matron, tall, willowy and sophisticated, tried on a shiny black Hornburg. She looked so very well dressed and with the Hornburg hat she looked absolutely complete. It was easy to see that the newer exactly what was right for her from the top of her head to the tip of her toe. Men always feel it is necessary to make snide remarks about ladies and they will have a field

day this Fall but don't let them bluff you, girls! I wouldn't be bothered with a hat that failed to draw comment from the men. It is their "back handed" remarks that assure us a hat is unusual enough to be different and smart. Dresser style" shoes! If the throng of women I saw, shopping for fall is any indication then it won't be wise to put off your shopping tour at the clothes store until the stores so fast that the selection is gone before you know it. Our own stores, here in Drayton Valley, are getting in an unusually nice selection of fashionable apparel so it would pay you to look around here first and if you are as lucky as I've been, you will find mostly everything you need and want, right here. The nice part of shopping in our town, other than the fact that it is easier and saves wear and tear on your temper and disposition, is the fact that the prices are often so favorable than city prices for the same article. There isn't anything more frustrating than to buy something in the city and then to come home and find the exact same thing out here at a dollar or two less. That corner home and find its favorite Lemon Chiffon Pie on the table will agree to let me have the most beautiful wardrobe in Canada!!!!!!

Lemon Chiffon Pie Filling Put the following in a baked pie shell. In the top of double boiler, beat 4 egg yolks until light, add 1 cup sugar, the juice of 2 lemons (or 1 orange and 1 lemon) and one tablespoonful of butter.

Cook over water that is just below the boiling point and stir the mixture constantly until it is very thick. When done, it is much thicker than custard as it falls and remains in ridges over the surface when lifted with a spoon. Beat the white of 4 eggs very stiff but not dry. Add the hot mixture slowly to the beaten egg whites, beating all the time then return the mixture to the double boiler and stir and cook for a couple of minutes. Put the following meringue to taste the meringue to the edge of the pie crust. Beat the remaining 2 egg whites until stiff. Cover pie and bake in a slow oven, never higher than 300° to 325°. Watch it carefully when meringue has browned evenly, remove from oven and cool.

"Shopping for grown-ups is a bore! In childrens stuff that make a store," Edgar Grist.

Put a wood moulding around your table, screw your legs in the bottom and apply a wax or stain to finish the wood.

It's Completed! You have a table you will use with pride. And to really appreciate your hand-made masterpiece, try pricing a duplicate at your closest exclusive furniture shop!

Whiter sediment in peas and beans indicates that an overripe vegetable has been used. Some times starch cooks out and gives the liquid a white look. Use only the liquid you need.

Once again I'm in one of those moods where I would rather not eat than to worry about what to fix, but I can't help Ken on that idea and if I expect him to let me buy some of the pretty Fall clothes then I had better feed him well. I'll bet that if he comes home and finds his favorite Lemon Chiffon Pie on the table he will agree to let me have the most beautiful wardrobe in Canada!!!!!!

"Simple," was the reply, "I've got a bicycle."

Gift: You want me to marry you, and you earn only \$20 a month? Son: "Don't worry, dear: a month soon passes when people are in love."

Sports

BY: Gene Lacey.

Due to a slight inconvenience caused me by a half-ton truck last Tuesday, I was unable to leave on my vacation, so here I am this week.

There were two football games in the sports picture last week. Mohit Oil served notice that they were definitely the class of this league as they beat Pan Am, twice by scores of 29-3 and 10-0.

In the first game Mohit jumped to an early lead and just kept on going from there. The contest was anything but a sporting event. At times, it threatened to break out into a doozy brawl as the players were exchanged freely between players—words which are heard in football.

To one unfamiliar with football, it would appear that the object of the game was to knock over as many of the base-men as possible. Unfortunately, the officiating wasn't strict enough to halt such action, and it continued throughout the game.

The second game, played the following night, did not develop into a football game. Both coaches were warned by the umpire-in-chief that any unsportsmanlike conduct by the players would be met with prompt ejection.

from the game. Having settled this point, the two teams promptly proceeded to play football.

Pan Am, led Mohit from the first inning until the fifth when a lapse in pitching by Pan Am, loaded the bases on 3 consecutive walks. The next Mohit batter flied out, then came the downfall: a single, a wild pitch and a home run sent Pan Am, down to defeat to the tune of 10-0.

By this time next week it should be all over, whether permitting, disallowing, barring any more half-ton trucks, this reporter should be on vacation and not have a column in the next issue.

Don't forget, however, that the following season starts on Sept. 14. If you haven't entered your team yet, then by all means get down to the drawing of the lot and do so.

There is still room in both the Mixed and the Men's Leagues. You have only this week to get your entries in, so hurry.

Well, I guess that sign thirty for a couple of weeks; see you then.

"EVERY AGE" HAS ITS PROBLEMS"

(Author's Home Rules)
Not so many years ago, old age presented few problems because the average person did not live very long. There were always exceptions, but usually forty was considered aged.

Nowadays, past seventy is average life expectancy. The problems now is to make certain that all these extra years medical research and potent new medicines are giving us, can be enjoyably lived. We have many new sustaining geriatric drugs and energy producing vitamins that can make your added years happier ones.

Visit your physician for regular health check-ups. When necessary, he will prescribe the medicines that can help you to stay younger than your years.

YOUR PHYSICIAN CAN PHONE 500-29
WHEN YOU NEED A MEDICINE
Pick up your prescription at shopping near us. A great many people entrust us with their prescriptions. May we compound yours?

HIGHWAYS

J. F. Lester, Professional Engineer, who has been Chief Location Engineer in the Alberta Department of Highways since the creation of this Branch in 1953 retired from service this week.

Mr. Lester has given outstanding service as a Location Engineer and has played a most important part in the highway locations of recent years.

Mr. H. J. Stephens, P. Eng. (Alta.) - M.E.L.C. - A.S.P. Resident Engineer in Calgary for the last six years has been named Chief Location Engineer by Gordon E. Taylor, Minister of Highways, to replace Mr. J. F. Lester who retires from service this week.

Mr. Lester has had a long and varied experience as an engineer. From 1911 to 1913 he served as an engineer with the Canadian Pacific Railway on construction before going overseas with the 1st Pioneer. He was later Commissioned with the 11th Canadian Trench (Railways). Returning from war service he returned to the C.P.R. He was successively on the Concrete Lining of the Connaught Tunnel and later on the Niagara Bridge and Branch Lines in the Prince Albert area. In 1934 he served with the Ontario Department of Highways as a Resident and Location Engineer. During World War II he served with the 4th Military in England as Resident Engineer and Works Officer on Alport and Ancillary Works, followed by two years as Engineer Agent with the Allied McAlpine on various civil engineering contracts. On returning to Canada he joined the Alberta Department of Highways in 1946 and served successively as Resident, Supervising and Chief Location Engineer of Manitoba and the Engineering Institute of Canada.

At a parting farewell in the office of the Minister of Highways, the Branch Heads who have served closely with him wished him God-speed. The Minister of Highways thanked him for his outstanding contributions. "You have been willing to work all hours of the day and night without thought of your own comfort in the interests of your profession and the people of the province of Alberta. Thank you for the wonderful contribution that you have made."

H. J. Stephens attended Grade, High School and Normal School in Calgary and graduated in Civil Engineering from Valparaiso University in Indiana. He joined the Department of Public Works as Resident Engineer in 1918. In 1921 he acted as Assistant District Engineer and in 1926 he left the Department to work in Northern Quebec gold fields as Surface Engineer for Seattle Gold Mines Co. From 1945 to 1946 he was

with the R.C.A.P. as Works Engineer in Calgary. In 1949 he rejoined the Alberta Department of Public Works as a Resident Engineer and in 1953 was transferred to the Location Branch as Location Engineer in Calgary where he has served up to the present time.

Mr. Lester was presented with a gift of beautiful travelling luggage.

"What's the matter? You look rattled!"
"Had a row with a fellow about driving in traffic!"
"Why didn't you call a policeman?"
"He was a policeman."

He: "I'll follow you to the ends of the earth!"
She: "Oh no, you won't!"
He: "Why won't I?"
She: "Because I'm not going there."

Correspondence Course in Basic Librarianship

A six-month correspondence course in basic librarianship will be offered to selected candidates this fall and winter. It has been announced by Hon. A. R. Patrick, Minister of Economic Affairs.

Purpose of the course, believed the first of its kind in Canada, is to provide library custodians with a more thorough knowledge of books and library practices.

The course was drafted by a committee of the Alberta Library Board, an advisory body to the Department of Economic Affairs which promotes libraries throughout the province. It will be administered by the department's Cultural Activities Branch. Studies begin in October and conclude in April with a three-day seminar at the University of Alberta.

Applications are open to library custodians who are sponsored by their local library board. A registration fee of \$10.00, payable to the Provincial Treasurer, should accompany applications.

Twelve lessons are scheduled in the course. They deal with cataloguing and classifying, book selection, methods for making a library more functional to meet local needs, the Library Act and general library administration, public relations, children's work, and evaluation of the candidate's local library. The term-end seminar will provide intensive review of course material and give demonstration in techniques of book repair.

MONTREAL - Eastern and Western Canada will be less than five hours apart early next year when Trans-Canada Air Lines takes delivery of the first of six ordered 127-passenger, 550-mile-an-hour Douglas DC-8 jetliners. The aircraft will go into service on transcontinental and transatlantic routes, cutting present flying times by more than one-third. The first of the Ralla-Royce-powered DC-8s, pictured here, was on Long Beach, Calif., on July 22. Inset is a photograph of TCA's first passenger aircraft, a 10-passenger, 200-mile-an-hour Lockheed-Elctra, purchased in 1937 and used on trans-continental air service. The Elctra was only 50 feet in length, while the DC-8 stretches 149 feet from nose to tail. The two are shown here in comparative size. The DC-8 devours more fuel in taxiing and take-off than the Elctra was capable of carrying. (TCA PHOTO)

FIRST HAIR CUT FOR FIRST BABY

Pictures by Curt's Studio

Young Richard (Ricky) Delane, first baby born in the Drayton Valley Hospital is getting his first haircut. Richard was born on August 8th, 1958, on the first day the brand new hospital got its official opening. As the first baby born in the new hospital, Richards' parents became the recipients of a number of merchandise vouchers from Drayton Valley merchants and businessmen. Among these were haircuts at Henry's Barbershop, the first of which is being received.

Mrs. Delane reported that, as the mother of the first baby born in the new hospital, she was treated like royalty. The picture to left shows Ricky in the age of exactly 10 months, just before he got his first haircut, and the one on the right shows the haircut under way. Apparently the young lad was just a little apprehensive about the hair cutting operation but he will soon learn to take it all in stride. The Delanes were quite glad to get a boy when Ricky was born. Their two previous children were girls, and they had promised Grandpa before he passed away a little over a year ago that they would have a boy, and Nature took care of the promise for them.

DOCTOR TO LOCATE IN D.V. (Continued from page 1)

ford and then was demonstrator in Anatomy at Dugham University, following which he was Traveling Chairman of the Medical Board, under the National Health Insurance Plan.

In 1946, Dr. Waugh married Miss Catherine Smith of Edinburgh, following which he was Traveling Chairman of the Medical Board, under the National Health Insurance Plan. Mrs. Waugh's father, Dr. Smith, was well-known in British medical circles as Dean of Edinburgh Medical School, a position he held for many years. Mrs. Waugh qualified for medical practice in 1944. She is not practicing as present, until their family is grown. They have three sons: Neil, aged 11, and the twins, Alastair and Alison, aged 8; all three children are now attending Drayton Valley School.

In 1952, feeling that Canada was the country of the future, they came to Canada and located on the Coast Branch. They left Marcola this summer to make their home in Drayton Valley. Dr. Waugh's parents, Dr. and Mrs. Waugh Sr. have moved to Drayton Valley from Marcola also. They purchased the former Burke house here. Dr. Waugh Sr. will be associated with Dr. Ian Waugh in medical practice here; he will be doing surgical work.

Mrs. Burn Conger, who was secretary to Dr. Waugh in his former practice, came here with the family and will remain in the care of the office, for the time being. Dr. Waugh plans to begin his medical practice next week, if the office is ready by then.

Legion Here and There

Drayton Valley Legion will conduct a \$1,000 money prize Bingo in the Curling Rink, on Friday, September 11th, starting at 8:30 p.m. Main prize in the Bingo will be \$500.00 and their will be ten other money prizes of \$50.00 each.

Money raised by the project will go towards the Building Fund for the new Legion Hall, which is being made ready for us.

MAN KILLED ON HIGHWAY 16
Dwight Wilson, 28, of Ennawake, was killed on Highway 16, September 5, when the car he was driving was in collision with another vehicle. A coroner, Dr. Brooks, will conduct an inquest at 2:00 p.m., September 23, in Ennawake, into the cause of the tragic accident.

Once I knew a little girl who was ten, going on eleven. Now she's thirty-eight. Going on Twenty-seven.

Mrs. Lilian Fischer, daughter of Mr. and Mrs. Karcov, presented her parents with a new granddaughter, Janet Louise, on July 28, which was the Silver Wedding Anniversary of Mrs. Fich Fischer's parents. Janet Louise weighed 7 lbs. 15 oz. when she was born in the Drayton Valley Hospital.

FAREWELL FOR BOWMANS
Friends and fellow Mohit-hands of Gordon Bowman got together in the Elks Community Hall recently to give Mr. and Mrs. Bowman a rousing farewell party. Music for the occasion was supplied by the Bowmans. As a farewell to his many friends, Gordon gave his own rendition of "O Dem Dry Bones". At the close of the get-together, the very popular couple was given a purse of money as a farewell gift. Back on the job for Northwestman Utilities is Leo McKernan, company agent in Drayton Valley. The McKernans spent some time in B.C. at Penitence and Banff.

the Snapshot Guild

Picnicking is a touring Canadian custom with hot dogs and portable equipment and cameras to record the hours of fun. Family Picnics Provide Snapshot Subjects

There is nothing like a long weekend to enable camera owners to get good mileage out of cameras. We have several three-day weekends during the summer to take advantage of the opportunity. We are fortunate that, with few exceptions, most of us are reasonably close to attractive spots for week-end family picnics where the children can romp and play in the wide open spaces while Mom and Dad relax in the sun or shade. It will add to the fun and enjoyment if you bring your camera and lots of film. There's a barrel of fun in the actual picture-taking with more to follow when you see the results. Pictures taken on such a week-end make interesting records of family life during the years when its members are all together.

Suppose your next week-end outing includes some fishing. The snapshots could start with your search for dew worms or other bait followed by a shot as you examine your fishing tackle. There's another good shot as you place it and the lunch basket in the boat. There'll be some excitement when you hook a fish and brought in, so have the camera ready for a picture that shows

It being netted at the side of the boat. One of the finest pictures you can shoot is when one of the youngsters gets a bite. Even if the fish are not biting that day, you can still record the keen sense of anticipation on Junior's face as he waits for his first strike.

There will be many opportunities for other snapshots, especially if this is to be a full day of fishing and you go ashore for lunch. Here are shots galore—making a fire, boiling the kettle, cleaning and frying the freshly-caught fish (if any) and then, the after-lunch snooze until the day cools a little and the fish begin biting again. One excellent picture you can also take will help your children to remember the need for being careful of forest fires. Have one of the adults take a shot of you showing the youngsters how to put out a picnic fire.

You finish the day with some shots of the day's catch and, later on, some bonfire scenes you can glory over and show to your friends. That will be fun to see and show when summer is done and its activities are but a memory.

— George H. Kay

Rodeo Spills

Cec Reeves, of Drayton Valley, was riding Yellow Fever comping out the chute at the Drayton Valley Lion Rodeo, but Yellow Fever had other ideas and Reeves hit the dust. The picture shows him at the start of the flight that ended in the dust of the corral.

PEMBINA NEWS ADVERTISER

Vol. 4 No. 37 September 17, 1959 A. Playford, Publisher Box 150, Drayton Valley.

COUNCIL MEETING

Drayton Valley Town Council in session Tuesday, September 8th, in the Town Hall. They are left to right: Don McKenzie, of Kent Mens Wear, Bert Demerg, of MacCalder Construction Ltd., Carl Wahl, of Pembina Pipe Line Ltd., Volmer Pickup, of Rexall Pharmacies, Charles Twissell, of Calgary Power, Mayor Adrian Meles, of Meles Insurance and W. G. Johannsson, Secretary-Treasurer of the Town of Drayton Valley. Absent from the picture is Beattie Cummings, Town Manager, who had been called away just before the picture was taken, and Vic Halwa.

Council meeting was convened on Tuesday the 8th of September with the following members present: Mayor Adrian Meles, Deputy-Mayor H. W. Pickup, Councillors D. G. McKenzie, Charles R. Twissell, Herbert Demers, Karl Wahl.

Letters from Council Ventures Ltd. and the Hudson Bay management, sparked a discussion on provision for additional water reservoirs. It was decided to direct Halwa, Davis and Brown Ltd., Professional Engineers, to draft a set of plans and estimates to erect an elevated reservoir with capacity of about 125,000 gallons.

The subject of gravel requirements for the fall and next spring and early summer came up. A committee was appointed to investigate the gravel requirements and also the size and type of gravel required. Committee was also asked to bring in recommendations as to how purchase of this gravel was to be financed.

OIL WIVES' MEETING

The first season of the year for the Drayton Valley Oil Wives' was held at the Cardium Room on Monday, September 14th. There were 155 members present. Letters of resignation were read from Billie Bowman, Ed Vize-President, and Joanne Demers, Treasurer, due to transfer from this area. New officers were elected to fill these positions: Mary Wilton, Ed Vize-President and Barbara Fairman, Treasurer.

After a lengthy business meeting the program committee introduced their guest, Mr. Boris Anton from Edmonton, who is a representative of a large oil company.

as to how purchase of this gravel was to be financed.

Council gave direction for the addition of curb and gutter and two additional feet of sidewalk on the south side of the sidewalk immediately south of the Hotel parking lot. They also directed that the Hotel management be requested to set up a bumper rail along the south side of this same parking lot to prevent cars from parking out over the sidewalk and obstructing pedestrian traffic.

The Returning Office was appointed for the Annual Election which will take place on the 14th of October 1959. Nomination Day will be held in the Town Office between 11 and 12 o'clock in the morning on the 28th of Sept. 1959. Vacancies to be filled this year include the Mayor, two councillors and a representative on the D.V. Hospital Board. A

letter from Dr. I. Lewis of the Edson Health Unit pertaining to fluoridation of the Town's water supply was tabled for later attention.

A representation from the Recreation Board interviewed Council and a discussion regarding the development of the Skating and Swimming facilities in the local park took place. Council finally gave direction for procuring details pertaining to Provincial Swimming Pool grants.

With autumn coming on the subject of Wilton Waste Project was brought up. It was decided at this time to gain complete details of the program from the Provincial Government.

Council meeting adjourned at 9:45 p.m. to meet again on the 6th October at 9:30 a.m.

other members of the patrol were Billy Hunter, Jack Cousens, Ricky Slone, Dennis Meiers and Stan Thompson. The No. 1 team will be on patrol for 1 week and then another team will take the patrol the following week.

TRAFFIC BY-LAWS LISTED

To familiarize the general public with traffic by-laws for the Town of Drayton Valley we will publish each week, as space permits, a series of By-laws enacted by the Council of the Town of Drayton Valley relating to traffic on streets and sidewalks.

41b-Riding Abreast No bicyclist, tricycle or motorcycle shall ride more than two abreast on a highway.

41b-No Clinging to Other Vehicles No bicyclist, tricycle or motorcycle shall hold onto, or have his bicyclist, tricycle or motorcycle attached to any other motorcycle on a highway.

Every rider of a bicycle, tricycle or motorcycle shall at all times when riding the same upon a
